Military Families Connect
bridges the gap for military families, which are "islands within civilian communities."

Military Families Connect (MFC) was formed in March of 2003 for military families of Sheboygan County.

These families do not have the benefit of living with their peers on a military installation, and sometimes feel they are "islands in a civilian community."

By joining military families together in our community, the opportunity exists for them to network and connect. They possess a wealth of information and are support for each other. Families can share issues and concerns, identify needs and build a network of support.

We welcome spouses, children, parents, grandparents, siblings, extended family members and military members serving on Active Duty, in the Guard and Reserve branches of the Army, Navy, Air Force, Marines and Coast Guard, in any duty status.
